If you receive voicemail, please leave a message including; your name, number, and an update/change to your circumstances (as listed above). The changes will be updated on the CE Central Housing Priority List.
Your HMIS Client Identification # is _____

Important information about the CE Central Housing Priority List:

- The results of your assessment are intended to determine the level of housing support that your household needs.
- If your information is placed on the CE Central Housing Priority List, then you will be considered for supportive housing openings in the future.
- If you are selected for a housing program, the program/agency will make every attempt to reach you.
- The housing program/agency will need to collect various documents from you to ensure that you are eligible for their program (i.e. proof of income, proof of disability).
- *It is in your best interest to maintain contact with your assessor/agency a minimum of every 30 days as this will help facilitate your readiness as openings occur. If you do not maintain contact and are unreachable you may be removed from the Priority List.*
- **Due to the high demand for housing and the limited number of program openings, wait times can range from many months to over a year. You are encouraged to continue to seek out other non-supportive housing options.**

Supportive Housing Definitions:

MAIN	Mainstream Resources	The household is encouraged to connect with any available community resources and/or prevention services to help resolve their housing situation (job training, emergency assistance, other rental assistance programs).
RRH/THP	Rapid Re-Rehousing/ Transitional Housing Program	Rental assistance is provided to the household for a period of time ranging from 3 months to 24 months depending on the program. Household works with a case manager to be able to pay all their own rent by the time the program ends.
PSH	Permanent Supportive Housing	Rental assistance is provided to the household and is not time limited. Households work with a case manager to help create stability.
